Danfoss FF4514 and FF4521 90° Swivel Adapter Families

Danfoss FF4514 and FF4521 90° Swivel Adapter Families

Danfoss FF4514 and FF4521 swivel adapter families are specifically developed for liquid cooling hose assembly connection to data center server rack manifolds.

The swivelling feature allows an easy and fast installation of cooling lines to the rack manifold also in tight environment.

Product Features

- Swivelling functionality for easy and fast connection
- Available for different hose sizes and port threads
- 304 stainless steel material provides broad fluid compatibility
- Standard seal material: EPDM, additional material available on request
- Operation temperature range: -3°C min (26.6°F), 60°C max (140°F)*
- 100% of production parts are helium leakage tested
- Production related QR code for easy traceability
